Founded in 2019, Orbital Project Management specializes in **Infrastructure and Construction PMO Setup and Management**. Our Executive Team has over **31 years** of energy and infrastructure experience, including 20 years of related military experience in locations around the globe. From operations to program management, our **certified PMPs** have **70+ years** of combined experience working on projects for companies serving nearly **37 million customers** across the United States. We managed over **\$560M** in project budgets the past 5 years with **on-time delivery** of project goals and **< 0.5% budget variance**. Safety is our top priority. We have an **A rating from ISNetworld**, and our **BCSP-certified** Safety Manager ensures staff receive training on potential jobsite hazards of the projects they manage. As a **certified DBE-WOSB-SDVOSB**, we enable Prime contractors and the Agencies served to meet project goals.
